SUPPLEMENTARY INFORMATION:

NTIA's BroadbandUSA program provides expert advice and field-proven tools for assessing broadband adoption, planning new infrastructure, and engaging a wide range of partners in broadband projects. BroadbandUSA convenes workshops on a regular basis to bring stakeholders together to discuss ways to improve broadband policies, share best practices, and connect communities to other federal agencies and funding sources for the purpose of expanding broadband infrastructure and adoption throughout America's communities. Experts from NTIA's BroadbandUSA program are available to provide technical assistance and to connect communities with additional resources, such as best practices, guides and program models.

NTIA's BroadbandUSA team is developing tools to support communities working to expand broadband access, adoption, and use. These webinars are among the tools BroadbandUSA uses to provide broadband information to the public, stakeholders, tribal, local, and state governments, and federal programs. Other tools include publications, workshops, meetings and co-hosted events with stakeholder organizations and agencies.

Participants are welcome to view one or many webinars. General questions and comments are welcome at any time during webinars via email to BroadbandUSA@ntia.doc.gov.

The webinars are open to the public and press. Pre-registration is recommended. NTIA asks registrants to provide their first and last names and email addresses for both registration purposes and to receive any updates on BroadbandUSA or via email at BroadbandUSA@ntia.doc.gov. Meeting agendas and relevant documents, including information on how to register for one or more webinars, will be also available on NTIA's website at <http://www2.ntia.doc.gov/WEBINARS>.
